The News.

The telegraph brings us the usual variety of news this morning, including Congressional Proceedings, Mexican and Californian news. In the New York Market, yesterday, flour was active, wheat steady and pork dult .--Wheat remains firm in our market, and pork is rather higher, with large receipts. Westher comparatively mild.

Senster Dougins Overboard!

It will be seen by our Telegraphic despatches that the Democratic Senstorial Cancus at Washington, after a stormy debate. deliberately removed Senator DougLas from his post as chairman of the Committee on Territories, and promoted Senator GREEN, of Missouri, to the wassncy. This, no doubt, is the grat overt act of hostilities against DougLis, on the part of the National Administration and its backers.

WASHINGTON, Monday, Dec. 6. '58.

The only perion of the President's Message which seems to give general satisfaction is that which relates to too Tariff. But the general feeling is that even for that postion the President deserves little credit, as some modification of the Tariff is absolutely necessary to save the Administration from backruptey.

She was towed by the tig Oaw so, and was most outside the pier by the tog Dan Rhodes, with colors at half mast. The feeling of pleasure at seeing the brig enter the port was general. The desperate and outsageous measures resorted to in order to gain possession of the brig had awakeued a general feeling in her favor on the part of our citizens, and her escape from toe hands of her unsurupulous enemies was therefore bailed with joy by all.

Tariff is absolutely accessary to save the Administration from backruptcy.

Mr. Dowart's Protection motion in the House seems to be merely a whiusized attempt to fore stall the President. The vote, however, was somewhat significant, in that it shows a Protection majority in the House. There is undoubtedly a majority ready to admit the necessity of a general augmentation of the Tariff, but it is doubtful whether a majority can be got to agree on any particular plan. All that Democrate what is to help the Administration out of its pecuniary difficulty, and to regain in Pennsylvenia.

This BENJAMIN LETT Was quite a noted character in yours gone by, and his name is conneted with some of the boildest and most daring on the charge of larceny, and sentenced to State leeds on record. He was born in Canada, of Prison for ten years. There was a strong con-Scotch parents, and spent the early portion of his life, if we are not mistaken, in the city of but they failed to elicit any evidence connecting Toronto. Those of the "Canada patriota" of 1837-8 will remember him as one of the bravest FRANK WALKER, have been convicted of the and most desperate of the rebel army. It is true that he was the author of many barbarous deeds, but they were not wholly without cause.

In the year 1837, when the rebellion first broke out in Canada, a sister of LETT's whom he loved with a brother's affection fell into the hands of a number of the British officers, who submitted her to the grossest indignitios which, we believe, ultimately resulted in her death. Henceforth LETT harbored the bitterest entity towards the Govcroment and its officers, and from this occurrence may be dated the beginning of his desperate

career.

He fought with great valor in every engagement with the Government troops and not unfrequently signalized himself with deeds of bravery. He took a prominent part in the burning of the British steamer Sir Robert Pecl, in 1837, and at Mill Point, where so many of the rebels were ceptured, he escaped by jumping from the second story of a house and cutting his way through a arge party of troops who had surrounded it. LETT then came over to the American sides but shortly afterwards went back in disguise and

shot Captain Users, the leader of the Canadian party who burned the American steamer Carcline. This seems to be one of the most cowardly nots over committed by Lerr. He employed a man to go to Capt. Usuen's beadquarters at night, who, under some pretence, got him to come to the deer, when Larr shot him dead on the spot, and again made his escape to the American side, Shortly afterwards he blew up the time to look into the hall for one moment, but Canadian steamer Great Western, at Oswego, N. Y, for which he was arrested, tried and convicted at Buffalo. He was sentenced to seven years imprisonment, but while being conveyed to the State Prison, handcuffed and shackled, he umped from a railroad train, while it was going at the rate of 30 miles an hour, and made his escape. His hands were smaller than his wrists and he found little difficulty in getting off the the hand cuffs, and then, with his feat still

ne took a pair of rocks and hammered at his shackes until he got them broken off. It would not do for him to remain on the It would not do for him to remain on the American side, so he went into Canada and commenced operations there again, and amongst his exploits were the blowing up of Brock's Moument, and also one of the locks in the Welland Canal, which events took place in 1838. He cluded the vigilence of both United States and Canadian officers for upwards of a year, when he was finally re-captured and sent to the Naw York States Prison, on the indictment for blowing up the Great Western, but was pardoned out fafter two years confinement. After this he came

The fire at the New Haven & Hariem Freight The fire at the New Haven & Harlem Freight
Deput originated in a room occupied by J.
Murdton for the manufacture of tin and lead
children's toys. The ravages were, confined principally to the rooms on Center and Franklin
streets, in most of which the stock was totally
destroyed. The property of the N. H. R. R. Co.
seems to have suffered but little. As three insurance employees were attempting to cover
over a quantity of fibur to the Harlem R. R. dopot with cloth to protect it from the finmes,
there tock place an explosion of gas, and a portion of the voer falling in, knecked them to the
ground. They were taken to the City Hospital
and given every stendion. Their names are
Andrew Burrows, Stephen Hallock and Peter
Johnson. The surgeon declares their injuries
not dengerous. There was a rumor, however,
that one man was buried under the ruins whose
body had not been recovered. The Harlem
R. R. Co. lost in articles of freight and flour,
paper, &c., \$8,000. Volue of the building \$23,paper, &c., \$8,000. Value of the building \$25,000. Insured \$20,000 in six Companies. The aggregate of the loss will not full far short of \$70,000, of which about two-thirds is probably covered by issurance.

the better reason. The attempt and not the deed, confounds us. It is, of course, a melancoolly failure, and the peculiar feature ab ut it is, that the Przeident, in one breath, declares that "in the whole course of a long public life, he never performed any official act which, in the retrospect, has afforded him more heartfilt satisfaction" than the enderzement of the Lecompton Constitution, while, in the very next, he confesses that "as an individual, it in true, he had expressed an opinion," directly at variance with the former! Mr. Bochanan, it seems, delights in anconsis tencies and contradictions, and never feels an much "heartfelt satisfaction" as when his practic. confounds his precepts. The Kansas question himself in his favorite way, and it is but simple justice to say that he improved it to the utter-

The state of our Foreign Relations occupies a large portion of the Message. The exhibit is by no means satisfactory and the tone in which they are discussed scarcely becomes the Chief Magistrate of the most powerful Republic on the With England; France, Russis, &c., ludoed, all the first-class powers, our relations are the weaker nations. Superannusted Springeimbecile Mexico, and the divided and distracted states of Central America, are those with whom we have to deal. As fer Spain, while there is and inexcusable delay in cettling American Cubs, is unnecessarily lugged into the discussion, as if to exasporate the Spanish Court and People, and postpone, if not prevent-save by an appeal to arms-the very settlement which the President professes to desire. The condition of Mexico is melancholy in the extreme. There, too, payment of just claims has been long with held, but the President speaks truly when he says that Mexico does not pay because the Government has nothing to pay with. He hopes much from the issue of the civil war now pending there, but should the liberal party be defeated, then the President thinks that the United States must proceed to suforce its claims, sword in hand. With Niceragus, Costs Rice, New Granada and Paragusy, we have bones to pick but it is hoped that an amioable adjustment will be reached in all four cases.

Our Domestic concerns occupy the remainder of the Message. The recommendations of the President are not many. With a lively recollection of Pennsylvania's October vote, he suggests an important change in the Tariff-specific, instead of ad valorem duties. He estimates that there will be a deficit of at least sight millions, next year, which Congress must provide for .-He advises that more light drought war steamers be built for the Navy. He seconds the proposition of the Postmaster General to raise postage on single letters from three to five cents. We hope that Congress will scout the proposi tion with their heels. It would be decidedly an advance backwards. The Pacific Reil Road is anies, who may be sided by grants of land. or money. Finally, the President rehearses the "Staver Echo" case, bespeaks the favorable consideration of Congress, for the District of Columbia, compliments Congress for their deseatch of business last year, and closes.

THE "DEAD-HEADS" AT THE ASSUMPTION MARK iso .-- The News continues to be severely exercised in mind, because the Sentinel casually mentioned the fact, that "the gentlemen from the rural districts," who attended the last Assumption meeting in this city, were liberally brought into town by the Rail Roads, free of charge.-The News, in its last issue, says:

The Sentinel makes a labored argument to prove that it did not intend to insult the gentlemen, who came in here't a attend the assumption meeting, when it twitted them of not paying their fares on the railroads. If not why did is publish that they were "brought into town free of charge?" As a compliment we should pro-As a compliment we abould proas it decidedly equivocal.

The Sentinel made no "argument" whatever on the subject, since none was necessary to prove a self-evident proposition. The Sentiatel never "twisted" the gentlemen in question "of not paying their fare;" we did but refer admiringly to the unwonted liberality of our Rail Roads on the interesting occasion. The fact was "published," as illustrative of the interests and influences represented at the meeting. We did not intend it specially, 'as a compliment," but the News is entirely welcome to consider it

JOHN MITCHELL'S PLATFORM.—The notorious JOHN MITCHELL, who, since his connection with the press of this country, has chiefly distinguish. ed himself by his extravegent laudation of the system of slavery, has removed his paper, the Southern Citizen, to Washington, and issued the first number there on Monday last. The following is what John modestly "requires," in behalf

of the South: First-Repeal of all laws prohibiting the foreign slave trade, or imposing penalties thereon. Second-Repeal of the law abolishing the slave trade in the District of Columbia.

Third-Absolute resistance to everything in the shape of a compromise between north and

Fourth-Peremptory demand for the lutervention of Congress, President and Supreme Court for slavery in all territories the moment : alayeholder brings his slaves there; in other words, intervention by the authorities to sustain the law and prevent robbery.

These four items, says Jons, "include all."-We should think so. He adds that "up to a certain date, he is willing to labor for their attainment," and that "if Southerners arouse themselven, they can attain them all, or else dissolve the Union !" This last is an old nostrum of Southern political quackery and long

since lost its officery at the North. Uncle Sam got "a bard bargain" and John Bull a good riddanco, when John Mirchall

"emigrated" from Australia to the United States IMMENSE SEEEP MOVEMENT.-The Santa Fe (N. M.) Gazette states that 105,000 sheep are about to be taken from Bernaille and Valentia counties, in that Territory, overland to Califormis. There is also a drove of 10,000 from Ohio,

now at Santa Fe, bound for the same destination. GOLD MINSBUR BURROS ATRES .-- In addition of the precious metal are reperted in the Canada Honda in Buenos Ayres, and the whole country is in commetion. It is so plenty, so the story goes, that only the unggets are collected, some of which weigh several ounces.

The Schomeand the "Consequences." The News still insiets that the proper way to iscuss the Assumption Scheme is, to consider First what will be the consequences of not dopting it. Thus, the News urges:

Let us discuss the consequences now, and a Let us discuss the consequences now, and the deavor to avert them in some way. If our circumstances do not require that anything should be done, then we need do nothing. Who will pay the interest, past due, and to become due, on these bonds and mottagge? Until it is paid, this State will not attract either capital or paid, this State will not attack with the congration, while every year we suffer it to remain unpaid will only add to our embarrassments, and reader it mure and more difficult to raise the means to pay these liabilities. It is easy to make an argument against assumption it we refuse to consider the consequences which

Taxes in Gzankee County.

orrespondence of the Sentinel. OZAUKER, Dec. 9th, 1858. Mr. Editor: -In your lesue of the 8th, appears a communication under the esption of "Flavor in Ozankee County," signed "B," dated Fredonia, Nov. 29. Your correspondent complains of the heavy taxes levied by the County Board of Supervisors, and endeavors to make political capital out of this subject, attributing Democratic rule as the cause. This game of endeavoring to make political capital out of every afforded him a grand opportunity of enjoying subject that comes up, is about played out, as it

eught to be. In justice to the Supervisors, who are all respectable business men, and themselves heavy tar payers, I wish to state that "B" has essigned every cause but the right one, for this state of things; and makes several mis-statements.-He evidently knows nothing about what he talks. The first and great cause of high taxes in

Ozaukee County is, the division which has given to Washington County 18 full towns, leaving Ozaukee not quite 7. Secondly, the great year 1830-60, may be regarded as the meximum, portion of non-resident land, which is generally delinquent, fell to Ozaukee, so that when a tax and the total means \$11,094,823, leaving a deficiency of \$3,682,187. well enough. Our troubles, it appears, are with ing Ozaukee not quite 7. Secondly, the great of \$10,000 is levied in Washington County upon 13 towns, not more than \$1,000 is returned delinmuch justice in the complaints made of her long quent, whilst of the same amount in Oztukce County, with only 7 towns, from four to six thoucisime, the real "apple of discord," the Island of sand is returned as relivquent. Hence, when no contingent fond is levied to balance the delinquency, the County Orders of Ozaukee County must float round at a tuinous discount, amounting in the aggregate, annually, to thousands of dollars, which must eventually come out of the coffers of the County.

In Washington County a contingent find of \$1,000 will make County Olders par and leave noney in the treasury. In Ozaukee, not more than half the area, not less than 5,000 will etfact the same or ject. It has been the custom in this County for, several years, by all persons doing business for or selling goods to the County, o charge a per centage sufficient to nott cash, after selling County Orders at a ruleous discount, sometimes as low as 70 cents on the dollar,-At the carnest solicitation of the tax payers hemtelves, the Board of Supervisors have levied this year a contingent fund of about \$4,000, which together with the sale of tax certificates it is hoped will make County Orders par and put a

amount is still due, and that we pay appually about \$500 interest on the bonds. I would further inform him that we have the last year paid for pauper expenses, to the different towns for County poor, about \$2,200. "B" ecoms to be poorly posted, and jumps at conclusions, and we commended to the attention of Congress, the are inclined to think that he was a neisy advowork of construction to be entrusted to private cate of division in 1853. I would further state, that the entire salary of officers in Ozaukec County does not exceed the sum of \$1,200. I await patiently for B's next.

The Tehnantepee routs is the abortest and most readily protected, but it will be compassitively too new, and the line of staging too long, while it is destined no doubt to become a transit of the first importance, and will deserve the highest perconago and concurage deserve the highest patronago and encourage-ment, still it cannot superceds the necessity of one or more routes through Central America.— It is of the highest importance that the route by Nicaragus should be re-oponed and its undis-turbed use for the transmission of mails, passangers, trops, and munitions of war secured by the selemn guarantee of a public treaty. Without this, in view of the unstable condi-tion of the local Governments of Central Amer-

A DISTRESSING CASUALTY .- It is our painful lot to record the sudden death, under circumstances of a Very distre-sing character, of June H. Brownson, E-q, of the firm of J. H. & W. P.

established.

Browneon, B.q, of the firm of J. H. & W. P. Browneon, attorneys of this city, and sons of Dr. Orestes A. Brownson, the celebrated editor of Brownson's Review.

Mr. Brownson passed the evening of Friday in the excisty of his friends, in full vigor of lusty manhood. Testerday morning between the hours of Foren and eight, bis multilated corpes was found exercised at the bottom of the bluff. near the head of Hill street, under the reer windows of his office, from which he had evidently leaped or fallen in the course of the night. Mr. leapea or main in the course of the high. Sr. Brownson occupied the room in the second story of the wooden building at the head of Hill street, on Taird, which is built upon the abrupt declivity of the bluff, giving the rear of the building a height of lifty to sixty feet from the ground—while the height from which Mr. Brownson had fallen could not have been less than expectly frost. The open wholey and the mangled remains, which had rolled down to the bottom of the bluff, too well attested the shock of the fearful descent. From the evidence elicited before the Coroner's jury, it appears that somewhore be-tween twelve and two o'clock of the previous night; Mr. and Mrs. Mayo, who kept a store in the same building occupied by Brownson, and who lived in the basement, were awakened by a on noise apparently in the upper story of the building which seemed like a blow struck with a heavy stick of wood on the floor, accompanied with a seand of the falling of a window. Nothing was heard, however, after the first alarm, to gira any clue to its cause, but the circumstance made such an impression on the mind of Mr.
Mayo, though he said nothing to shouse the fears
of his wrife, that he sight no more that night.
Is the morning the discovery of the bedy of

of the bluff, a hundred feet below the open win-dow of his room, afforest a dreadful solution of the alarm which banned him all night with a vages terror.

From the evidence given before the Jury by the intimate acquaintances of the deceased, in relation to his habits, there is no doubt that the decreased was a victim of an infortunate habit of semnambulism. He was known by his friends to be in the habit of walking in his sleep, and some ix weeks since had fallen down the stairs lead-log to bis rooms while in a fit of this cort. This tendency was aggravated by any kind of montal excitement. On the previous day he had spent the whole afternoon, from 5000 to six, in playing these with a friend, who occupied a neighboring

Mr. Biowneco, crushed and distorted, at the foot

room, and the excitment of the game had un-doubtedly developed the propensity which led to bit deeth.

He had been out in the evening, and had retured to his room with Mr. Richard Ireland, he who, after arranging some business matters with him, left him about cight o'clock; and this was the last which was seen of him alive. As he was found with his clothes on his person, his bed remaining underturbed hit is probable that he could be some fell asleep in his chair, and perhaps realized a country of the count turged to his room with Mr. Richard Ireland,

inicatter world A circumstanco which lends a peculiar melans choly to this catastrophe, is, that Mr. Brownson was in daily expectation of his wife, which may, even now, crown the tragic horror of the atory with the sad coincidence of a greeting at the grave. The brother of the deceased is #1 St. Loois, and the fatal accident would probably never have occurred but for the absence which consigned his brother to frightful accidents of insance sleep. Mr. Brownson had resided in this city for somewhat over a year, and in the interpolated had become the capita of a wide circle of val had become the centre of a wide circle of friends, who will mourn the sad end of a career to which a fine education and excellent talents. seemed to assume a brilliant success.

the practice of mentions. The anosequently should be Protestant Episcopal church, and rector of St. John's church, Canandaigus. He was for a time the rector of St. Ann's perish, Brooklyn, and was succeeded in that parish by the prosect Bishop of Obio, the Rev. Dr. McIlvane. In 1857, while the vecerable Bishop White exercised the Episcopal functions in the diocece of Pennsylvania, Mr. Ouderdook was appointed his assistant, and continued so until the death of that venera-ble man in 1836. He continued in charge of the diocese until October 21st, 1844, when he was suspended, and was succeeded by Bishop Potter. In October, 1856, he was reinstated, but never, we believe, afterward exercised the functions of a Bishop in the diocese of Ponneyl-vania. The Philadelphia Journal of last evening and the property of the propert

ing says:
Bishop Onderdonk has on several occasions Bishop Onderdonk has on several occasions made his appearance before the world as an author. He was a profound theologian and accurate canonist, and in his writings displayed great vigor of intellect and remarkable legical acutenost. His sermons were published a few years ago, and form a valuable collection, and a tract by his pan, entitled "Spiscopacy Tested by Scripture," is regarded as the most excellent essay on that subject in the larguage. As above stated, Bishop Ouderdonk died at an enry hour this morelog, while the Ray. Mr. Odenheimer, of St. Poter's church, was in the act of reading the commendatory prayer for the dead. His brother was also present in the room. He departed this life with great calmage and in the perfect comfort of a reseenable religion and a boly hope. Remance in Rest Life.

The New York correspondent of the N. O. Pi-cayone, tells the following charming romance, which was summed up in the New York papers on Nov 2nd, in the following loconic style: MARRIED. - On the 1st inst , Mr. George Eub bard to Miss Elizabeth Blecker Hadden, New York, Nov. 1, '55.

This is to feetival of All Saints, and a charm ing day it has been. The Catholic and Epison-pal churches have all been open, and generally well attended. At Trinity Church, after the morning service, an iscelant occurred which, in some of the associations connected with it, is so fraught with interest that I make no apploy for describing it somewhat naricalistic.

fraught with interest that I make no apology for describing it somewhat particularly.

Some years ago there lived in Boston a young wan, of one of the best limities in the city, bandsome, intelligent, well educated, of agreeable manners and address, and exceedingly popular with all who knew him. Still he was most generally known as a very "last" young man, and noted for his extravegance in the expenditure of money, his disregard for these conventionallines and moralities of which society requires the observance of all within its pale. The result of such a cereer need not be described as it is seen every day in great citles, happening in despite the subject of our story in the good opinion of his friends, of himself, and of the word, was a voyage in some responsible espacity that should test the sincerity of his desire to redesern him-

The front portals of the church were thrown open, and a bridal party entered and advanced to the altar, where a fair young bride (the daughter of one of the officiating minister's most respectable perishioners) was united in wedlock to the hero (for is he not a hero?) of my narrative; whose labors as a missionery of Christianity she has devoted herself to share.

OPPIOS OF THE DAILY SENTIMEL. Wednesday Evening, Dec. 10, 1899. Moster Mattrag.—In the money market there is no change in, rate: There is about enough Exchange on the market to supply the demand, but no surplus, and it is selling at 1 per cent premium. Currency, though easier, is not at all plenty, and the Babks are not discounting to any great extent, except for their regular customers.

Liank discounts are 10 per cent, as usual. Rates on the
street range from 1% to 3 per cent. Gold is plenty and server range from 12 to 5 per cent. Gold a pleasy and selling at 1 to 12 per cent. Commence — Receipts of wheat are still moderate, and the market remains firm, with an upward tendency in milling grades, the range for which is 84857c. No. 1 con-tinues firm at 78a75c. The sale of 5,000 bus at 75c, re-

ported by as yesterday as "No. 2" was No. 1, although the types would have it otherwise. There is a little more doing in flour at prices as last reported. Oats remain firm at 40c, and corn is quiet at 47ai9c. In other grains there is no change.

We note a tolerably active market for dressed hogs, with a slight improvement in prices, heavy hogs selling readily at \$6a\$6,25. One very nice tot of 25 begs sold at \$6.81, and there were one or two other small sales of heavy hogs at a still higher figure. The market closed

Erm.

The Gaz its, of Thursday, reports the Unclina it hog and provision market of the pravious slay, as follows:

The scattering returns of the number of hogs packed at various points in the West, published this morsing, exercised an unfavorable influence upon the hog market, and noterithatanding fine weather and light recipils, prices declined 15250 per 100 lbs, the falling of being most marked in grades aversating less than 170 lbs.

At the reduced rater, the damants the afternoon, the trade colling rater aversating less than 170 lbs. but this was stronger in the produced and the afternoon, the trade colling rither pather more sellers than buyers. There deliverable next Norwheep, at \$5. We note this transaction to show how much parties are willing to bet on the price of hogs a pear hence. The receipts during the last 24 hours were about 6,000 head. It is now pretty generally conceded that the packing at this place will reach at least \$20 000 head.

The provision market partook of the heavy feeling exhibited in logs. There was some disposition to sell, with considerable caution on the part of buyers. About 2,700 bbls mess pork, deliverable in the latter part of this month, soft at \$15,00, and 200 do deliverable 25th last, at \$18. The only sale of bulk mentheard of was 150,000 lbs sides deliverable at Wheeling, Feb. 1st, at \$6, Lard closed dull at 11 to 10 prime barrel.

Warsar,—Mayret steady and firm. We quote No. 1 spring at 183.5ct, and 184 to 50.5ct. frm.
